Etherlynx Vision™ Camera Systems

Each package is a complete photo-finish and timing solution for your track meets.

All systems can run on any Windows computer equipped with an Ethernet connection. All systems include the new FinishLynx EasyAlign™ technology that shows a full-frame video view of the finish line for fast and accurate camera placement. All systems take **FULL COLOR** pictures for easier athlete identification.

All systems use Power-over-Ethernet, so no AC power is required at the camera location. A single Ethernet cable transfers all data AND provides camera power. All packages include LynxPad Meet Management software – this integrates with multiple online meet entry websites. You can upgrade at any time to a higher specification package.

Etherlynx Vision™ Packages

Scholastic Package: Certified FAT system with FinishLynx Lite software for timing on a scholastic budget. Includes the entry-level camera in the EtherLynx Vision™ range, 6mm fixed lens, 600 fps accuracy, EasyAlign™ camera alignment. No wind gauge or scoreboard support. Radiolynx wireless start and remote zoom lens are optional.

Z5100SC Scholastic Vision System	\$4995	\$4,795.00
Z5102 Radiolynx Wireless Starting*	\$1890	\$1,795.50
ZC848M Remote Zoom Lens for Vision Cameras**	\$680	\$646.00

(*included in Gold and MVP packages)
(**included in Silver, Gold and MVP packages)

Bronze Package: Certified FAT system with full FinishLynx32 software for complete plug-in and upgrade support. Includes the new EtherLynx Vision™ camera, manual zoom lens, 1000 fps accuracy, and EasyAlign™ camera alignment. Package contains all necessary software components to integrate with wind gauges and a wide range of scoreboards from all major manufacturers.

Z5100B Bronze Vision System	\$7495	\$7,120.00
------------------------------------	--------	-------------------

Silver Package: Certified FAT system with 4x the image resolution of the Bronze system. Includes remote features for ease of set up. All lens functions, including zoom, focus, and adjustments to cope with changing light conditions, are controlled from the FinishLynx software. Includes Bronze Package components plus 2000 fps accuracy, ACM auto-capture plugin, and a motorized lens and remote positioner for precision setup.

Z5100S Silver Vision System	\$11295	\$10,370.25
------------------------------------	---------	--------------------

Gold Package: Certified FAT system with upgrades for championship-level meets. Includes Silver Package plus a time-synchronized Identilynx™ camera for full-frame video integration, Radiolynx™ wireless start system, and a portable LED display clock.

Z5100G Gold Vision System	\$16995	\$16,145.25
----------------------------------	---------	--------------------

MVP Package: Certified FAT system with 2nd EtherLynx camera for reverse angle evaluation. Includes Gold Package plus a 2nd EtherLynx Vision™ camera (1000 fps) with remote lenses and positioners for both cameras. One IAAF-approved wind gauge with cables for remote integration.

Z5100MVP MVP Vision System	\$24995	\$23,745.25
-----------------------------------	---------	--------------------

See our website for more packages and options.

ResultTV™ (shown on Lynx Video board)
Turns any PC into a scoreboard. Display any FinishLynx data (athlete names, times, lane assignments, wind, flags, medals, and affiliation).

POLE VAULT SWING-UP RACK

Swing Up Faster and Stronger with Better Technique and Timing! The Pole Vault Swing Up Rack holds the pole vaulter's shoulders forward throughout the swing up just like in a real pole vault. The Swing Up Rack creates resistance through out the entire swing up building shoulder extension strength makes the swing up stronger and faster enabling the pole vaulter to jump on stiffer or longer poles. Keep more energy in the pole while swinging up. Used by Champion Advantage Athletics' Pole Years! Used at the USA Olympic Training Center!

The Pole Vault Swing Up Rack is made from powder-coated steel. Shoulder and back areas are padded with high-density foam padding hand wrapped in weather proofing vinyl. It is made to last.

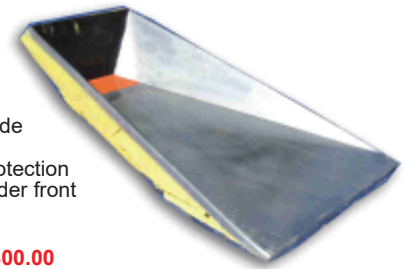

Z2290 Pole Vault Swing-up Rack \$527.00 **\$480.00**

- Lightweight 16lb. design.
- Add weight (not included) to increase resistance
- Adjustable sprint harness attaches to two rail-anchored straps that keep sled stable

2530 Speed Sled \$149.95 **\$112.46**
 2531 Extra Harness \$39.95 **\$29.96**

DIGITAL IMPLEMENT SCALE

- Accurate to 0.1 oz. with 55lb limit
- Easy to read display
- Powered by 4 C batteries (not included)
- Detachable top plate

4240 Digital Scale \$98.95 **\$74.21**

OVERSPEED PACER IMPROVE YOUR SPEED!

- Use for both Overspeed and Resistance training!
- Pulley system provides gradual buildup to enable assisted runner to gain top speed!
- Helps to increase stride length and stride speed.

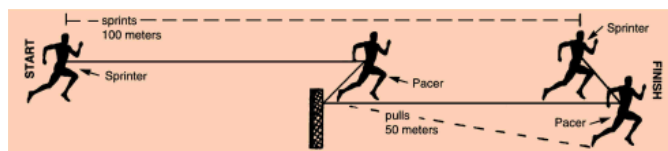

OVERSPEED TRAINING

- Adjust belt to snug fit. Place swivel hook on Sprinters belt. The Pacer leads having rip-cord pass through pulley at his back. Attach short cord to stationary object near midway point for chosen distance up to 100 meters.

Note: Lead pacer runs 50% speed allowing sprinter to run faster than 100% of their normal speed. Both should reach training distance at the same time & rope will release at its end.

RESISTANCE TRAINING

- Sprinter leads w/Pacer following hold back Sprinter. Pacer keeps pulley on belts swivel hook, but now swivel hook is in front (not the back). Allows Sprinter speedy release if moving too quickly.

4000 Overspeed Pacer \$89.95 **\$75.00**

P.V. STANDARDS PLACEMENT DISPLAY

"Where do you want your standards??"

- 9" Digital units,
- Speeds up the PV competition
